

Research Degree Storyboard

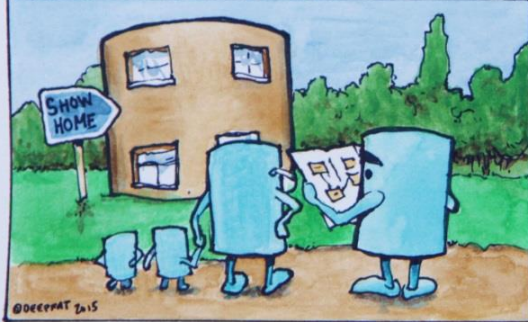

Story telling is an important facet when working with data.

This is the story of the entire research degree.

DATA BEGAN TO TRANSFORM AND GROW AND FOUND A NEW HOME - THE RELATIONAL DATABASE

ON REACHING THE AGE OF 50 DATA WAS EXPLODING - MAKING LOTS MORE DATA AT AN ALARMING RATE!

EARLY ISAM FOSSIL

DATA WAS EXCITED BY THE POSSIBILITIES AND BEGAN TO EXPLORE ITS LIFECYCLE

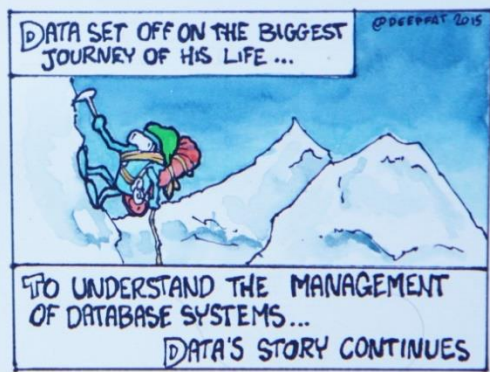

DATA'S CURIOSITY LED HIM TO QUESTION WHAT IS BEST PRACTICE HIS SELF-PROTECTION AND SECURITY

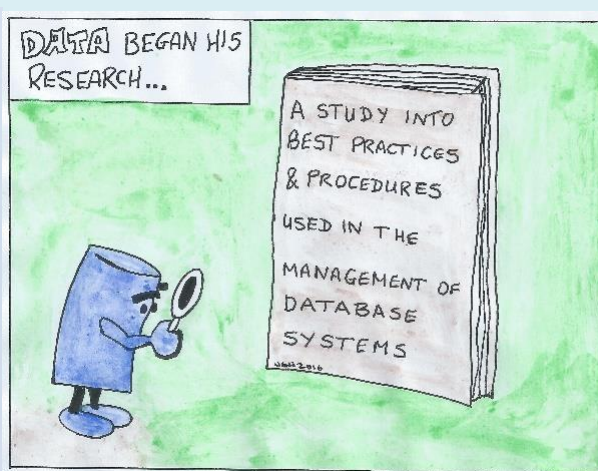

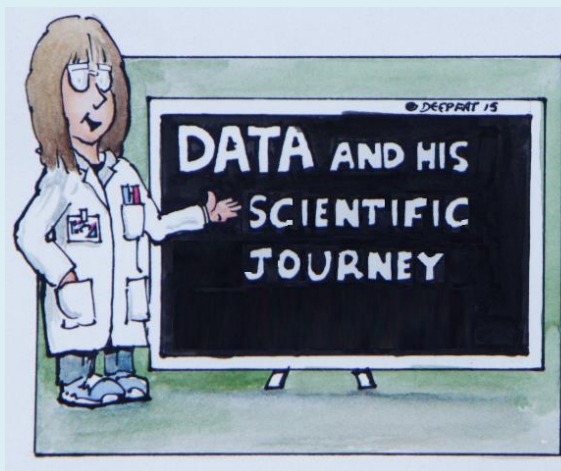

THIS AVAILABILITY TO MEET OTHER DATA AND ENSURE HIS INTEGRITY AROUND THE GLOBE

ILLUMINATED BY THE INSIGHT, BUT STAGGERED BY THE COMPLEXITIES OF ALL LIFE ...

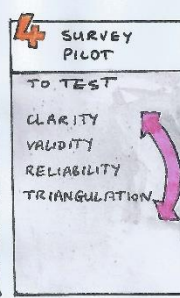

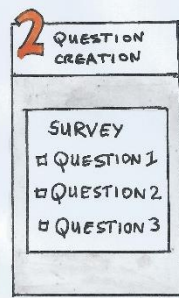

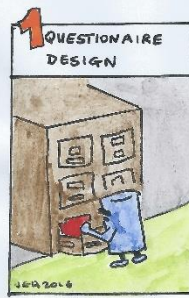

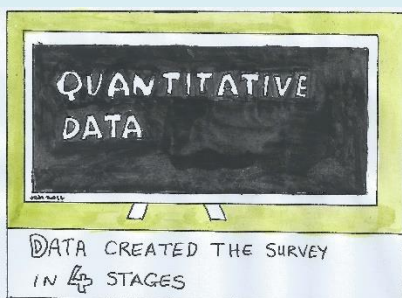

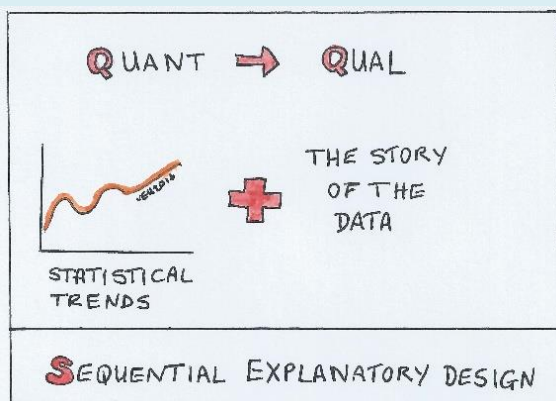

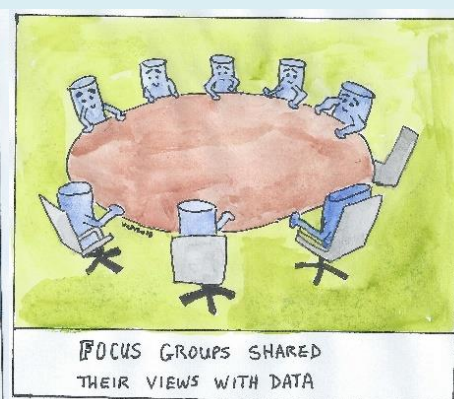

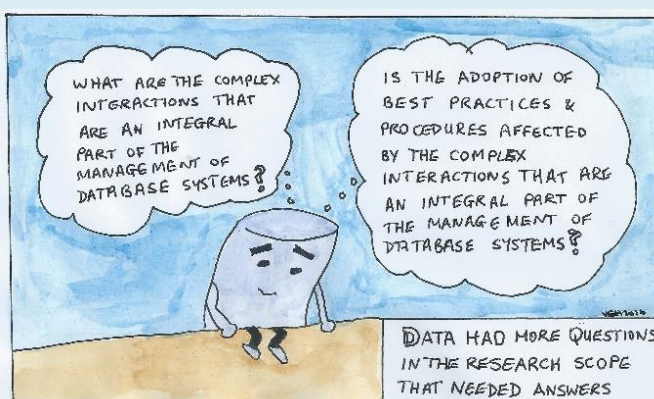

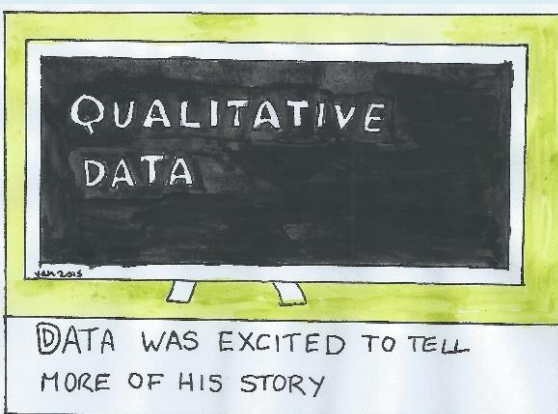

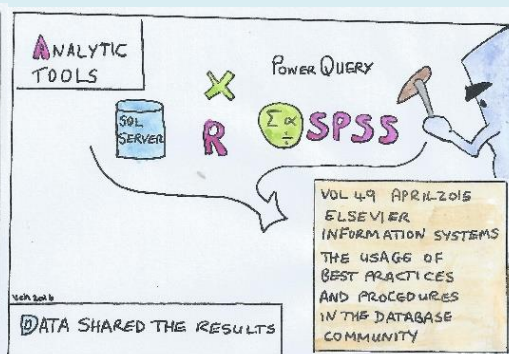

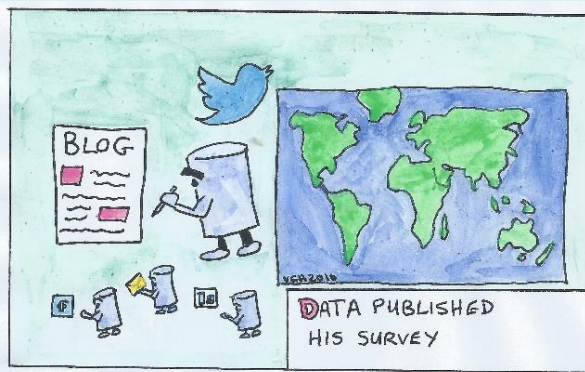

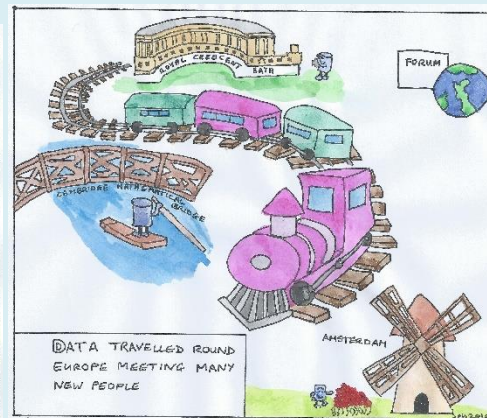

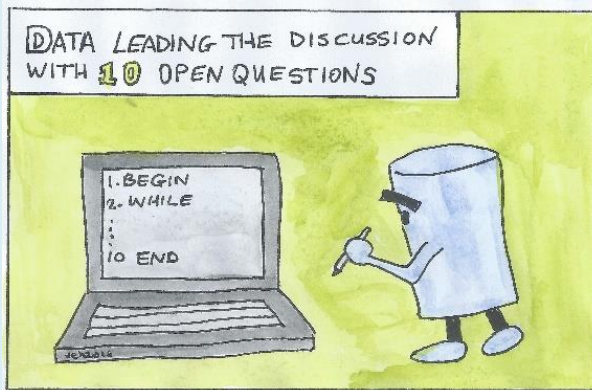

THE RESEARCH HAD TO BE VALID, ROBUST, RIGOROUS & PRECISE. DATA NEEDED A SCIENTIFIC METHOD TO FOLLOW

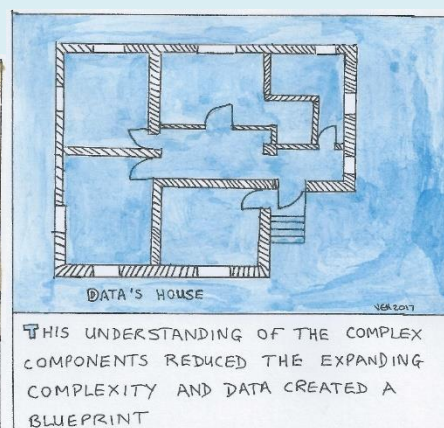

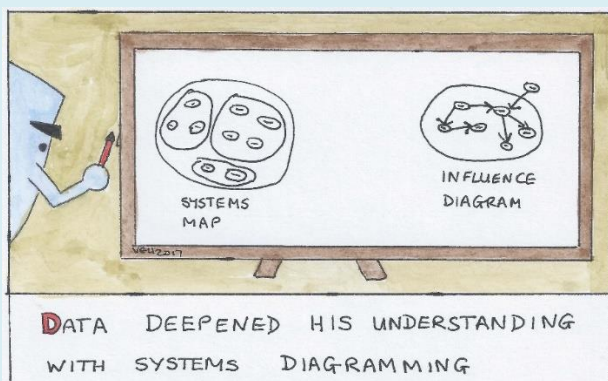

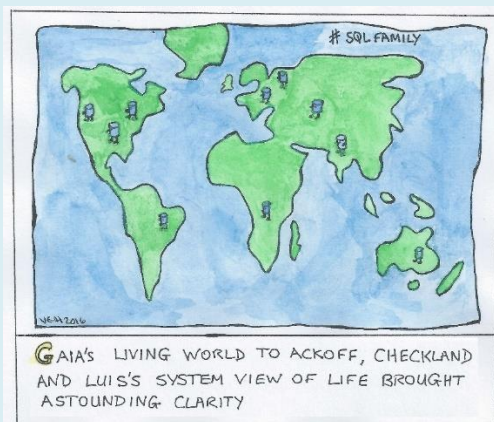

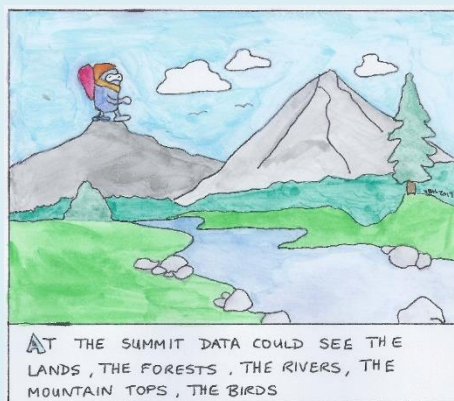

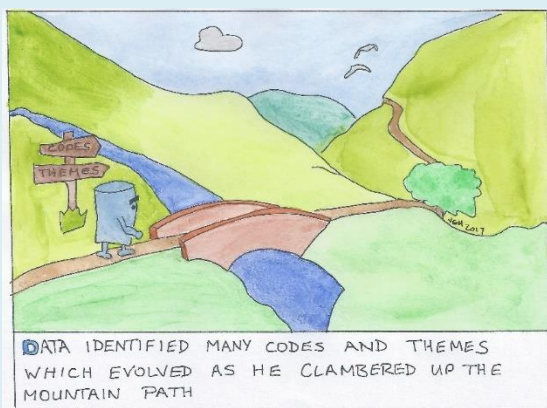

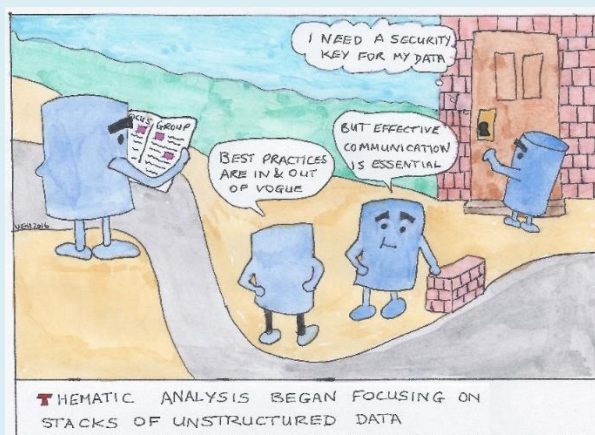

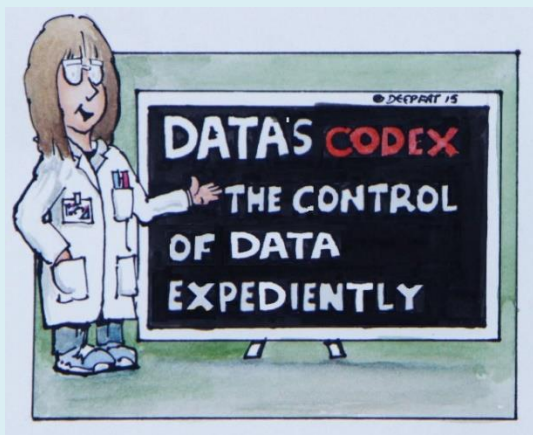

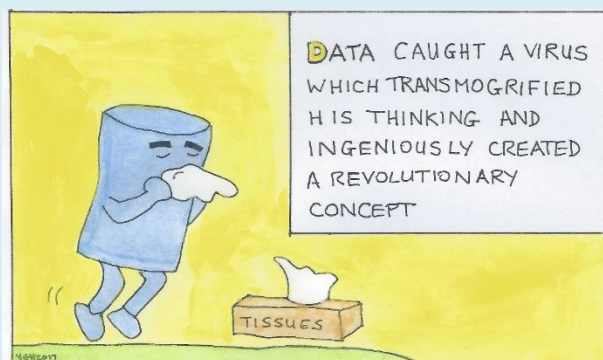

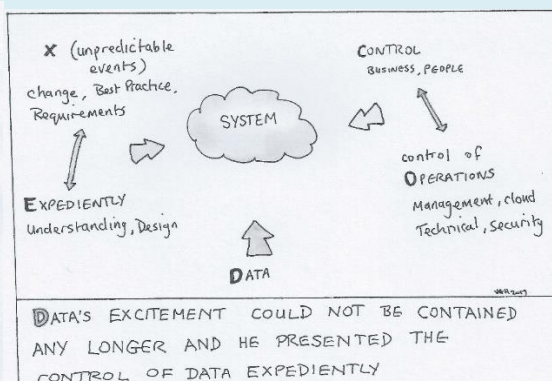

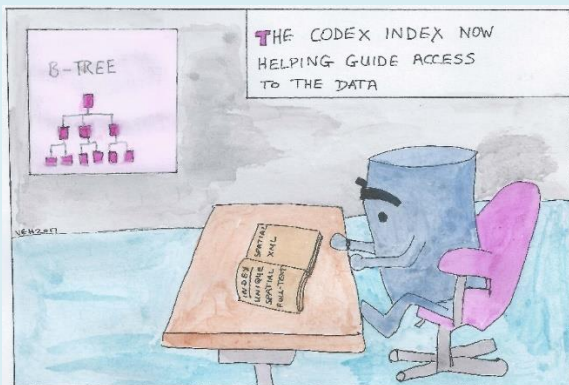

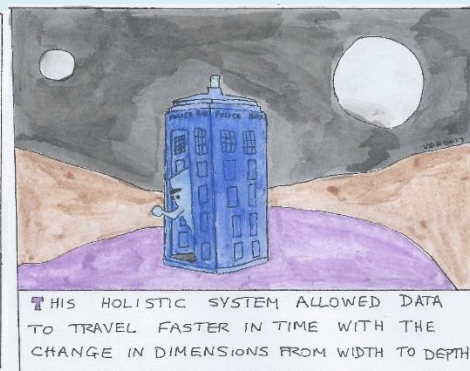

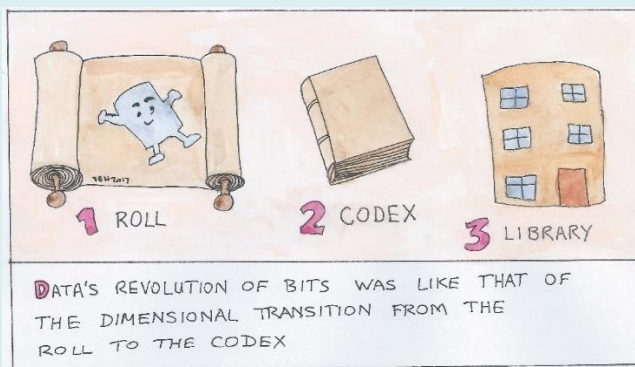

DATA SEARCHED HIGH & LOW FOR A METHOD. ARRIVING AT THE DECISION OF A MIXED METHOD APPROACH

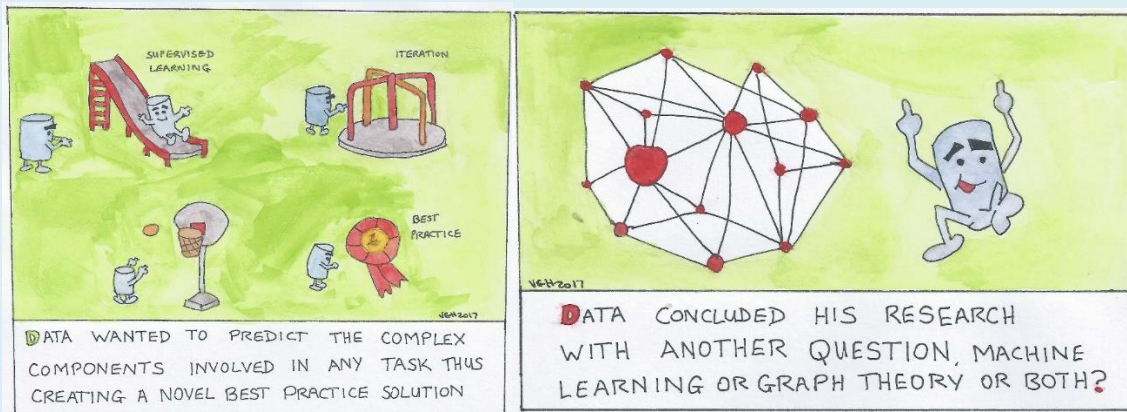

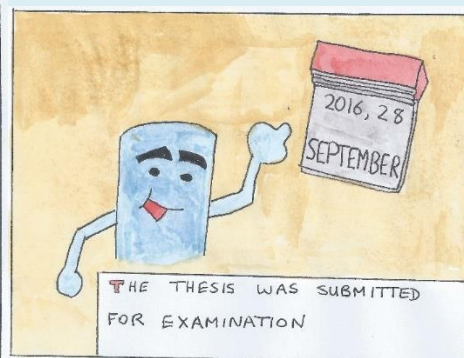

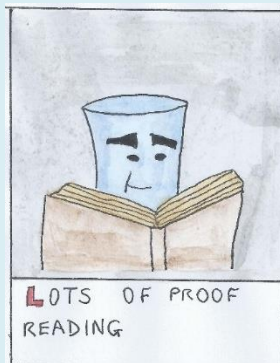

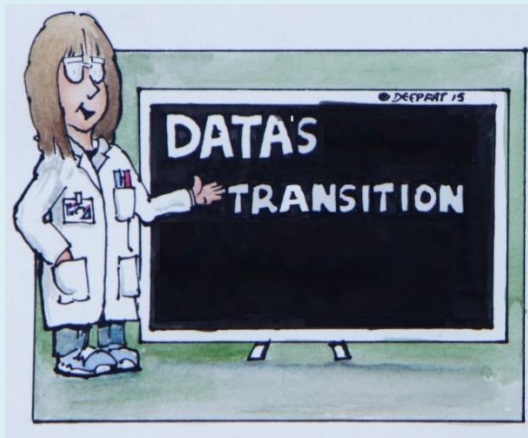

With grateful thanks to Andrew Fryer for the first set of cartoons

Victoria Holt

Database Researcher, Senior Data Analytics and Platforms Architect
